STAGE STORIES.

Amusement Announcements, Lobby Chat ter—Odd Bits of Gossip.

All the elements of popularity as applied to a stage production, are embodied in Chas. B. Hoyt's most successful comedy, "A Milk White Flag", which comes to the Grand February 12th. It is claimed that this season's production of this successful farce is in many respects the best ever given to it. The special features are the engagement of Little Chip for the part of "The Private", and the Three Fanchetti Sisters, Specialty Artists.

A special feature of this engagement will be the appearance of "Mary Marble as the orphan and John W. Dunn as the colonel."

"WHEN WE WERE TWENTY-ONE,"

Mr. George Clarke, with a splendid company under the management of Mr. Edw. E. Rice, will appear at the Grand in this city shortly in the last New York success "When We Were Twenty-one". Mr. Clarke every one knows who has been to Daly's Theatre, where, as the leading actor, he was the greatest favorite in that grand dramatic corps. Last season Mr. Clarke and Ada Rehan played "The Taming of the Shrew" and, as "Petrucio" Mr. Clarke could have been satisfied with the laurels he has gained. But actors, like politicians, always want to be at the top, and Mr. Clarke is no exception. Hence we find him now, under the management of clever Edw. E. Rice, "scouring the country round" as "Dick Carewe" the quiet bachelor of the period. But he doesn't remain one long. Oh! no!—The play ends with his head bowed to the yoke of matrimony, and, after the most charming four acts ever penned, Dick Carewe ambles gently in double harness, side by side with the beautiful Phyllis Errierson. We don't wish to anticipate pleasure, to the plot of the play we will keep until we give our further review of the players, but this we say without fear of contradiction.—"When We Were Twenty-one" will make a grand trial to see it.

"THE ROYAL BOX."

The favorable dramatic event of the season will be the appearance at the Grand in February 5th, of the distinguished romantic actor, Mr. Andrew Robson, in Charles Coghlan's famous play, "The Royal Box," under the personal direction of Mr. Edward L. Bloom. It will be presented with a perfect cast, brilliant costume and magnificent scenic investiture. Prices for this engagement—\$1, 75c, 50c and 25c.

OBITUARY.

Miss Henrietta Wilson died at her home near Cane Ridge, on Monday last. Although she had been quite ill for several weeks, her death was a shock to her friends and relatives. Miss Wilson was the daughter of Dr. John P. Wilson and Frances Thomas Wilson. Since the death of her mother, which occurred some time years ago, she has taken charge of the home circle. She was devoted in her tastes, and loved her home and friends. She was a member of the Cane Ridge Christian Church, and was a good Christian woman. Miss Wilson's mother was a sister of Mrs. J. M. Thomas, of this city. The funeral took place Wednesday morning from the home place at 10 o'clock. Services by Elders J. T. Sharrard and Lloyd Darsie. The deceased is survived by the following brothers and sisters: David, H. C., (Frankfort) Mrs. Annie Ottitt (Jackson, Miss.), Mrs. Mamie Jure (Pewee Valley,) Hiram P., J. Simms, John, Miss Alino, and Mrs. Carrie Smith.

Samuel S. Beil, aged about 68, a well known farmer of the Clintonville precinct, died Tuesday morning, of pneumonia. He is survived by his wife, who was a Miss Liver, four daughters and one son, who resides in Flemingsburg. The burial took place yesterday morning at 10 o'clock at Clintonville cemetery.

John Anderson, aged about 60, died Wednesday night at his home at Jacksonsville, of pneumonia. He is survived by his wife and one daughter. The funeral will occur at 2 p. m. to-day at the residence. Services by Elder J. T. Sharrard. Burial at Jacksonville cemetery.

Joseph Elias Thompson, aged 74, died at Georgetown, Tuesday. He united with the Baptist Church in 1849, and had served as deacon 26 years.

F. B. Crooke, aged about 55, died at Richmond Tuesday of pneumonia. Mr. Crooke's first wife was Miss Mollie Forman of this city.

OPERA HOUSE BURNED

The Grand, Cincinnati, Completely Destroyed by Flames.

The Fire Spread to the Mechanics' Institute and the Butler Building, Adjacent, Which Were Badly Damaged.

Cincinnati, Jan. 23.—The grand opera house, Cincinnati's finest theater, was gutted by fire, which broke out soon after the curtain went up on E. H. Sothern's production of "Hamlet" Tuesday evening. By the exercise of marvelous coolness, the entire audience, which filled the theater, escaped in safety and without serious accident.

The flames spread northward with marvelous rapidity, and in an incredibly short space of time the Butler building, facing on Sixth street; the recently remodeled Ohio Mechanics' institute, at Sixth and Vine, and the rear of the Gifts engine house were in flames, despite the work of practically all of Cincinnati's fire department.

There were many thrilling escapes among the supers on the stage, and among those in the Cincinnati gymnasium, which occupied the top floor of the opera house.

The overturning of a lamp in a dressing room, which an actress was using to heat her curling irons, is thought to have been the cause of the blaze.

The theater was crowded, and the evening performance of E. H. Sothern and Virginia Harlan in "Hamlet" had begun, when the fire broke out.

A rush for every means of exit followed, and great coolness was displayed.

Shortly after the conflagration started a loud report was heard in the vicinity of the stage, and it was rumored that the stage chemicals had exploded. The excitement in the theater was intense.

Sothern at once went before the footlights and said that there was no danger, but the crowd had started for the doors.

An aged woman in the parquet was tripped under the feet of the panic-stricken people. A man braced himself against the crowd and, picking her up, literally threw her over the brass railing at the rear of the parquet.

Mrs. John Gettleson, Miss Binswanger and Joseph Gettleson were in the balcony when a servant from Dexter's hotel, at Seventh and Vine, placed a ladder to loose wall on the alley side fell at 9 o'clock with a terrific crash. A number of firemen who were working in the alley were warned by the falling of bricks and escaped.

The total loss will foot up about \$500,000, as follows: Sinton estate (opera house), \$200,000; E. H. Sothern (properties), \$30,000; Havin & Rainforth (fixtures), \$3,000; Joseph Butler (Butler building), \$50,000; Cincinnati gymnasium, \$12,000; Builders' exchange, \$500; Mechanics' institute (building), \$1,000; R. H. Weatherhead, \$500; S. Rosenthal (printer), \$50,000; Bruner Woolen Co., \$6,000; Procter & Collier Co., \$10,000; Achert & Henckel, \$25,000; Max Woehner & Co., \$25,000; American Process Engraving Co., \$12,000; Isen & Co., \$20,000; Rauche & Goldsmith, \$5,000; National Cash Register Co., \$100; Charles Melber (music), \$500.

BATTLESHIP KENTUCKY.

Capt. C. H. Stockton Receives Orders to Proceed to Manila and Take Command of the Vessel.

Washington, Jan. 23.—The navy department has issued orders directing Capt. C. H. Stockton to proceed to Manila, Philippine islands, and take command of the battleship Kentucky, which is now nearing the completion of her voyage from the United States to the Asiatic station. Capt. Colby M. Chester, the present commander, on being relieved, will return to this country.

Message of Condolence.

Charleston, S. C., Jan. 23.—When Charleston was stricken by an earthquake in 1886 Queen Victoria promptly called a message of sympathy, and an autograph copy of the message is among the archives of the city. Tuesday night the city council authorized the mayor to send a message of condolence to the king on the death of the queen.

HOTEL BURNED.

An Explosion Sent the Flames Into All Corners of the House—Three Men Dead, Others Injured.

Kewanee, Ill., Jan. 23.—Fire Monday morning destroyed the Commercial house and caused the death of three men. The dead: C. C. Cotton, aged 22 years, Terre Haute, Ind., advance advertising man of an "Uncle Tom's Cabin" company, suffocated in bed; Elmer Peterson, Galesburg, Ill., brickmason; James Fischer, Walnut, Ill., auctioneer.

The injured: John C. Gruber, Ft. Wayne, Ind., contractor, jumped from window in third story, fell on cement sidewalk and hurt about the back and internally; Martin Jacobs, Chicago, expert mechanic, jumped from third-story window and hurt internally; will recover.

An explosion in the kitchen sent the flames into every corner of the house and cut off escape by means of the stairs. The frantic guests rushed to the windows, where some hurled themselves to the ground without waiting for assistance by the firemen and others had to be carried out, fainting and panic-stricken. Three women were rescued, and all the other 20 guests escaped with the loss of all their baggage and clothing. The loss is about \$4,000, without insurance.

SIGNOR GIUSEPPE VERDI.

The Celebrated Italian Composer Is Seriously Ill With an Affection of the Brain.

Milan, Jan. 22.—Various accounts are given of the illness from which Signor Giuseppe Verdi, the celebrated Italian composer, is suffering. The Secolo, of this city, says the malady is congestion of the brain. It asserts that at 9 o'clock Monday morning he had been unconscious for six hours, and that the doctors are still in consultation.

A bulletin issued at 9 o'clock Monday evening says: "Acute troubles in the lobes of the brain have deepened sensibility, and his condition is serious."

Signor Verdi was taken ill shortly after his return from a drive, and was found in his room unconscious.

SUCCUMBED TO DISEASE.

Warren Leland, Jr., Proprietor of the Hotel Grenoble, New York, Passed Away at the Age of 46.

New York, Jan. 22.—Warren Leland, jr., died Monday at the Hotel Grenoble, of which he was the proprietor. Mr. Leland had long suffered from Bright's disease. For the last two months he had been confined to his bed. He came of a family of hotel proprietors, and had been in the hotel business all his life. His death is the third that has occurred in the Leland family during the last two years. His cousin, Warren Leland, sr., was proprietor of the Windsor hotel. The wife of the latter died from the effects of the shock of the fire which destroyed that hotel. Her husband followed her within a few weeks.

THE SALT TRUST.

Big Packing Companies Endeavoring to Force It to Live Up to Alleged Contracts.

Cleveland, O., Jan. 22.—The big packing companies are endeavoring to force the salt trust to live up to alleged contracts for the delivery of salt to them. Several days ago the Omaha Packing Co. began suit against the United Salt Co. (the trust) for \$30,000 damages, and Monday a similar suit was instituted by Nelson, Morris & Co., of Chicago, damages being placed at \$90,000. It is claimed that the salt company entered into a contract to furnish salt for a year at a certain price, and it is alleged that the term of the contract has been violated.

These actions were instituted in the United States court.

Mrs. Lease Applies For a Divorce.

Wichita, Kan., Jan. 22.—Mary E. Lease on Monday filed suit for divorce from Charles L. Lease in the district court of Sedgewick county. An affidavit as to the correctness of the allegations set forth in the petition was made by Mrs. Lease in New York. She charges gross neglect of duty.

The Channel at Brunswick Harbor.

Washington, Jan. 22.—The secretary of war Monday transmitted to the house the report of the chief of engineers containing the estimate of the cost of obtaining a channel 26 feet deep and 200 feet wide across the outer bar at Brunswick harbor, Georgia. The estimate is \$200,000.

The Plague Among British Troops.

Brussels, Jan. 22.—According to the Petit Bleu, bubonic plague is raging among the British troops in Cape Colony, and many deaths that are attributed to enteric fever and dysentery are really due to plague.

Col. Harrison Visits the President.

Washington, Jan. 22.—Among the visitors at the white house Monday was Col. Russell Harrison, son of the former president, whose exit from the army has been widely commented upon. He called to pay his respects to Secretary Cortelyou and his old friends in the executive mansion.

BIG FIRE AT MONTREAL

Millions of Dollars' Worth of Property Goes Up in Smoke.

The Destruction Was Particularly Large Among the Wholesale Houses in the Heart of the Canadian City.

Montreal, P. Q., Jan. 24.—Fire started at 8:05 in the premises of M. Saxe & Sons, wholesale clothiers, on the corner of Lamontagne and St. Peter streets. The fire apparently had a good headway before the first alarm was sent in. The firemen, on arriving, found the building, a three-story stone structure, a mass of flames, the fire having apparently started in the basement and rushed up the elevator shaft in the rear of the store.

Before the nearest reinforcements reached the scene, the flames had leaped across St. Peter street, which is very narrow at this point, and attacked the big five-story stone building occupied by H. A. Nelson & Sons Co., fancy goods, etc. Here it spread as rapidly as it had in the Saxe building. In almost an instant it seemed as if almost the entire building was a roaring furnace.

The warehouse of Bardmore & Co., tanners, next to Nelson's on the south, was then attacked, and from there the flames communicated to the establishment of Silverman, Boulter & Co., wholesale hatters and furriers. Here another inflammable stock added zest to the flames. In the meantime the flames had continued down St. Peter street on the side on which it started to the corner of St. Paul street, licking up the premises of J. Bourdeau & Co., hats, caps, etc. St. Peter street for an entire block was a mass of flames on either side.

In the meantime a great fight was being made to save the big board of trade building, erected eight years ago at a cost of \$600,000, and adjoining the Nelson building on the north side. For a long time the efforts of the brigade were successful, a plentiful supply of water keeping the exposed portions cool. But the flames had extended along the north side of St. Paul street, going west from Silverman, Boulter & Co.'s, licking up half a dozen concerns in its way, until it reached the big wholesale fur establishment of James Corstine & Co. This building extended all the way from St. Paul street to the board of trade building, and the flames appeared to go through it like a tinderbox.

When the rear wall of this building was reached it was seen that the solid sheets of flame sprang out and up and seized hold of the big building in a dozen different places, driving the firemen back.

The newer and more modern structures burned more slowly than those which already had fallen prey to the flames, but the firemen could not stay the march of the devouring element. By this time every piece of fire-fighting apparatus the city possessed was in use. Two water towers which had failed to keep the blaze out of the board of trade building were shifted around to St. Paul street, but here again they were too late.

The flames were checked at 1 o'clock Thursday morning after between \$2,500,000 and \$3,000,000 worth of property had been destroyed. The fire is still burning, but the firemen have it apparently under control.

The weather was cold, and the firemen were greatly hampered in this respect.

Vanderbilt's Personal Property.

New York, Jan. 24.—Chas. D. O'Connell, official appraiser selected to estimate the value of the personal estate of the late Cornelius Vanderbilt, has finally completed his report. It was filed in the office of the controller. According to his figures the gross personal estate left by Mr. Vanderbilt is estimated to be valued at \$52,099,567.96.

Washington, Jan. 24.—Gen. William Ludlow, now in this city on special duty in connection with the formulation of a plan for the establishment of a military war college probably will soon be assigned to more active duty in the Philippines.

Chiff Dwellers' National Park.

Washington, Jan. 24.—The Lacey bill providing for the cliff dwellers' national park in New Mexico, embracing about 150,000 acres of government land, was favorably reported by the house committee on public lands Wednesday.

To Survey Arid Lands.

Washington, Jan. 24.—Representative Garham, of California, has introduced a bill appropriating \$3,000,000 for surveys of arid land regions and providing for a report to congress within ten years of plans for putting the irrigation into practice.

Resolution of Condolence.

Lausling, Mich., Jan. 24.—The Michigan legislature Wednesday afternoon adopted a resolution of condolence of the death of Queen Victoria. Gov. Bliss has recalled invitations for a reception in the executive parlors Thursday evening.

Yale University a Beneficiary.

Chicago, Jan. 24.—By the will of the late Albert E. Kent, which was filed for probate Wednesday, Yale university is a beneficiary to the extent of \$50,000. The entire estate amounts to \$1,250,000.

SHE DECLINED.

Gave the Suitor to Understand That She Was Not in the Patching Business.

Few American youth have careers made for them. Those who deplore this fact and shun the stings of self-effort may find tonic in the reply of a western girl to an offer of marriage, says Youth's Companion.

A young man of more book-learning than force of character lost the young wife who had toiled to support him, returned to his native town for consolation, and found it. Some months later she, too, passed away, and the sad youth soon appealed to a well-known clergyman for assistance in finding a helpmate.

The minister introduced him to a western girl of health and energy, who the next day received a plaintive note from the widower. He declared that the Lord had made great inroads upon his marital affections, and it now seemed to be His will that she should repair the breaches of his life.

The reply, which the clergyman keeps to-day as one of the choicest specimens of a varied collection, reads simply: "Mend your own clothes."

SHARES PUBLIC SCHOOLS' HONORS.

Excellent Geographical Exhibit at Paris Largely Due to Union Pacific.

The Passenger Department of the Union Pacific Railway is in receipt of a letter from Superintendent C. G. Pearce inviting it to share in the honors bestowed upon the Omaha public schools at the Paris exposition. As is well known, the Omaha schools were awarded a gold medal for the excellence of the showing made by their methods of teaching geography. The most important part of the exhibit consisted of a set of illustrated publications and maps showing the sources from which geographical material and information are obtained. Superintendent Pearce acknowledges that great credit is due to the Union Pacific Passenger Department, which furnished many of the publications and maps for the Paris exhibit.—Omaha "Bee," Dec. 11th, 1900.

EPIDEMIC OF GRIP WORST EVER KNOWN.

GRIP BACILLUS EVERYWHERE—IN THE AIR WE BREATHE, IN THE WATER WE DRINK, IN THE FOOD WE EAT.

Bacillus of Grip.

Magnified 16,000 times.

Peruna not only cures the grip but prevents it.

Taken in time thousands of lives will be saved in this present epidemic. Every family should take the precaution to secure a supply of Peruna at once, for the retail and wholesale stock of the remedy may be exhausted by the enormous demand for it.

It is wisdom to have Peruna in the house even before the grip attacks the household. It has been ascertained by a reporter that the following people of national reputation have given public endorsement and testimonials to Peruna as a remedy for la grippe:

Congressman Howard, of Alabama, says: "I have taken Peruna for the grip and recommend it as an excellent remedy to all fellow-sufferers."

Congressman White, of North Carolina, says: "I find Peruna to be an excellent remedy for the grip. I have used it in my family and they all join me in recommending it."

Miss Frances M. Anderson, of Washington, D. C., daughter of Judge Anderson, of Virginia, says: "I was taken very ill with the grip. I took Peruna and was able to leave my bed in a week."

Mrs. Harriette A. S. Marsh, President of the Woman's Benevolent Association, of Chicago, writes: "I suffered with grip seven weeks. Nothing helped me. I tried Peruna and within three weeks I was fully restored. Shall never be without it again."

At the appearance of the first symptoms of grip people should stay indoors and take Peruna in small doses (teaspoonful every hour) until the symptoms disappear. This will prevent a long, disastrous sickness and perhaps fatal results.

Not Afraid of Kidnapers.

"Geordie," said the motherly old soul, "aren't you afraid to be so far from home at as late an hour as this?" "Afraid of what?" "Of kidnapers." "Naw!" exclaimed Geordie. "I'm a good little boy, and the Lord will take care of me." "Sides," he added, contemptuously, "my papa ain't got any money."—Chicago Tribune.

He Knew.

The politician's wife was startled by a sound below stairs. "John," she cried, "there's a robber in the house." "The house," roared John. "What's the matter with the wife? That's worse."—Philadelphia Press.

A Wonderful Cure of Rheumatism

of the many thousands cured by

DR. GREENE'S

The greatest known cure for NERVURA.

Mr. T. H. Roleau, of Essex Junction, Vt., says: "For three years I was terribly afflicted with a most severe case of rheumatism. For 23 months I could not walk a step, and I never expected to walk or work again. I was completely helpless and suffered the most horrible agony. "No man in these parts ever suffered as I did. I took everything that I ever heard of, but never found anything that did me the slightest good until I began the use of Dr. Greene's Nervura blood and nerve remedy. "And now comes the most wonderful part of all. In a short time this splendid medicine made me completely well. It is the best remedy I ever saw or heard of, for it raised me from a condition of utter helplessness and constant agony to perfect health. It saved my ability to work which was entirely gone. I am now entirely well and strong, and I owe my health and my life to Dr. Greene's Nervura blood and nerve remedy. I advise everybody to use it."

Are Pouring Into Osborne House
Messages of Condolence—Re-
mains Will Be Taken to
Windsor on Saturday.

Cowes, Isle of Wight, Jan. 23.—
Queen Victoria is dead and Edward
VII. reigns.

The greatest event in the memory
of this generation, the most stupen-
dous change in existing conditions
that could possibly be imagined, has
taken place quietly, almost gently,
upon the anniversary of the death of
Queen Victoria's father, the duke of
Kent.

The end of this career, never
equalled by any woman in the world's
history, came in a simply furnished
room in Osborne house. This most
respected of all women, living or
dead, lay in a great four-posted bed
and made a shrunken atom whose
aged face and figure were a cruel
mockery of the fairgirl who in 1837
began to rule over England.

Around her were gathered almost
every descendant of her line. Well
within view of her dying eyes there
hung a portrait of the prince con-
sort. It was he who designed the
room and every part of the castle.
In scarcely audible words the white-
haired bishop of Winchester prayed
beside her as he had often prayed
with his sovereign, for he was her
chaplain at Windsor. With bowed
heads the imperious ruler of the Ger-
man empire and the man who is now
king of England, the woman who
has succeeded to the title of queen,
the princes and princesses, and those
of less than royal designation list-
ened to the bishop's ceaseless prayer.

The queen passed away quite
peacefully. She suffered no pain. Those
who were now mourners went to
their rooms. A few minutes later
the inevitable element of materialism
stepped into this pathetic chapter of
international history, for the court
ladies went busily to work ordering
their mourning from London.

The body of Queen Victoria was
embalmed and will probably be taken
to Windsor Saturday. The coffin ar-
rived Tuesday evening from London.
It was thought that the queen was
dying about 1 in the afternoon, and
carriages were sent to Osborne cot-
tage and the rectory to bring all the
princes and princesses and the bishop
of Winchester to her bedside.

Four o'clock marked the beginning
of the end. Again the family were
summoned, and this time the relapse
was not followed by recovery.

The prince of Wales was very much
affected when the doctors at last in-
formed him that his mother had
breathed her last. Emperor William,
himself deeply affected, did his best
to minister comfort to his sorrow-
stricken uncle, whose new dignity he
was the first to acknowledge.

The queen had been ailing for sev-
eral days and was confined to her
room. Sunday she received a paral-
ytic stroke, which confined her to
bed, and Sunday night she lay in a
comatose condition most of the time.

From all parts of the world there
are still pouring into Cowes messages
of condolence. They come from
crowned heads, millionaires, trades-
men and paupers, and are variously
addressed to the prince of Wales and
the king of England.

London, Jan. 23.—Telegrams have
been dispatched to all members of
the house of commons urging them
to attend at St. Stephens Wednesday.
A special order has been issued by
the war office discontinuing all bu-
dle and drum calls until further no-
tice.

Absolute silence reigned Tuesday
night in the vicinity of Buckingham
palace and Marlborough house. A
small bill signed "Balfour" was post-
ed outside, announcing the demise of
the monarch. Everywhere Tuesday
night the one topic of conversation
was what would happen under the
new reign. Much interest was evinced
in the way in which the enormous
fortune of the dead queen would be
distributed, the general notion being
that Osborne house would go to Prin-
cess Beatrice, and that she and Prin-
cess Christian would come into a con-
siderable portion of Victoria's wealth.

London, Jan. 24.—Edward VII. was
proclaimed king of Great Britain and
emperor of India in the St. James
palace at 9 o'clock Thursday morn-
ing.

London, Jan. 24.—King Edward re-
ceived the privy council at 2 o'clock
Wednesday. The councillors, who in-
clude the royal dukes and distin-
guished nobles of the kingdom, await-
ed the king in the throne room. The
king entered an adjoining room, and
then the duke of Devonshire, lord
president of the council, went
through the formality of acquaint-
ing the councillors that the queen

was dead and that her son, the prince
of Wales, succeeded her. The royal
dukes, with the lords of the council,
then repaired to the private apart-
ment of the lord president.

The king then entered the council
chamber and made a brief speech.
Immediately afterward the oath was
administered to the king by the lord
chancellor, and then the members of
the council took the oath of alle-
giance to the new sovereign. After
this they passed in turn before the
king, kissed his hand and withdrew.
This concluded the ceremony.

An extraordinary issue of the Ga-
zette Thursday morning, which ap-
pears with black borders, announces
the death of Queen Victoria. Then
follows the proclamation of Edward
VII., the acknowledgment of alle-
giance by the privy council and the
king's speech at his accession. After
giving a list of those who attended
the council, the Gazette announces
that the king subscribed to the oath
relating to the security of the church
of Scotland. It concludes with the
king's formal proclamation ordering
all officers and persons in authority
throughout his dominions to con-
tinue to exercise their offices during
the royal pleasure, and exhorting his
subjects to aid and assist such offi-
cers in the performance and execu-
tion of their duties.

Buckingham palace is made ready
for the royal persons who are arriv-
ing in London. Representatives of all
the royal families in Europe will
probably be present at the funeral,
including the kings of Italy, Belgium
and Greece, the crown princes of Ger-
many and Sweden and the Archduke
Francis Ferdinand of Austria. All
the European courts will go into
mourning for various periods.

11 o'clock Thursday morning the
members of the royal family gath-

Wales.)

ered around the body of the late
queen, which lies in a simple coffin in
the Chapel Ardent, festooned with
red and white hangings. The bishop
of Winchester, standing before an
altar, removed for the occasion from
the private chapel, read a portion of
the service for the dead. The coffin
rests on a specially erected platform
draped with royal purple, the feet ly-
ing to the east. The head faces the
simple altar. Over the features is a
thin veil.

For a few hours after the conclu-
sion of the service the public was ad-
mitted to the room and allowed to
view the remains of the sovereign
who so long reigned over them. The
body will rest there until Sunday,
and it is probable that no removal
will occur for ten days.

London, Jan. 23.—The news of her
mother's death was tenderly broken
to Dowager Empress Frederick late
Tuesday evening, says a dispatch to
the Daily Mail from Frankfurt. "It
was a terrible shock, but the empress
is bearing up bravely. The trials for
the last few days, however, have ex-
ercised a most prejudicial effect upon
her health, which causes serious an-
xiety."

Washington, Jan. 23.—Furial no-
tice of the queen's death was commu-
nicated by Lord Pauncefote to the
president through Secretary Hay on
Tuesday afternoon. It contained the
simple announcement of the fact of
death as sent to the ambassador by
Lord Lansdowne, the British secre-
tary of state for foreign affairs.

REGRET AND SYMPATHY.

Congress Adopted Suitable Resolu-
tions, and the House Adjourned
Out of Respect.

Washington, Jan. 23.—The house
Tuesday adopted a resolution ex-
pressing profound regret and sym-
pathy for the English people on account
of the death of Queen Victoria. The
president was requested to commu-
nicate the expression to the British
government, and, as a further mark
of respect to the memory of the
queen, the house immediately ad-
journed.

The announcement of the death of
Queen Victoria Tuesday, conveyed
unofficially to the senate, was recog-
nized by that body in the adoption
of an appropriate resolution, which
was ordered to be engrossed and for-
warded to the prime minister of
Great Britain.

THE LEGISLATURES.

Several of Them Adopt Resolutions
of Respect to the Memory of
Queen Victoria and Adjourn.

Little Rock, Ark., Jan. 23.—The
house Tuesday afternoon adopted a
motion to adjourn out of respect to
the memory of Queen Victoria.

Topeka, Kan., Jan. 23.—The Kan-
sas legislature Tuesday adopted con-
current resolutions of respect to the
memory of Queen Victoria.

Sacramento, Cal., Jan. 23.—The sen-
ate adopted the following resolution:
"That when the senate adjourn it does
so out of respect to the memory of
Queen Victoria, late queen of Great
Britain and Ireland and empress of
India, and as a mark of sympathy
with that sentiment which in the
presence of death makes all the
world kin."

San Francisco, Jan. 23.—Out of sor-
row for the death of the queen of
England, flags here are flying at half
mast, and pictures of her majesty,
draped in mourning, are displayed.
Memorial services will be held in
many of the churches of the city.

Salem, Ore., Jan. 23.—The Oregon
legislature adjourned Tuesday after-
noon on account of the death of
Queen Victoria.

IN CANADA.

The Governor General and the Min-
isters Took the Oath of Al-
legiance to King Edward VII.

Ottawa, Ont., Jan. 24.—At a cabinet
meeting on Wednesday the governor
general and the ministers took the
oath of allegiance. Chief justice of the
supreme court administered the oath
to the governor general, who in turn
administered it to his ministers. The
usual proclamations announcing Ed-
ward VII. king, and confirming the
appointment of those in office, were
issued. The day of the queen's fun-
eral will be named as one of general
mourning in Canada. The entrance
to the parliament buildings will be
draped in black.

American Expression of Sympathy.

London, Jan. 24.—Many references
are made by the afternoon papers to
the American expressions of sym-
pathy. The St. James Gazette says:
"The honor paid to the memory of
the queen by the president of the
United States is one that should live
in the memories of all of us when
questions for discussion arise be-
tween the two great English-speak-
ing countries. There are hidden bless-
ings, perhaps, even in so great a sor-
row as ours of to-day."

GREAT QUEEN'S LIFE.

She Was Born to Poverty—Ascendant
to the Throne of England—Her
Marriage to Prince Albert.

The year 1817 was a memorable one in
the history of England. Scarcely had
the property of a country which had known
no serious ditch of obstacle for a cen-
tury been more seriously menaced by
the destinies of a constitutional
monarchy that had stood the storms of
800 years enveloped in a more forbidding
loom.

The death of the Princess Charlotte
opened up the prospect of succession to
the throne to the young son of George
III., and had inspired him with a desire
to marry. As yet the only sons who had
been born were the duke of York, who
had children, and the duke of Camber-
land, whose first living child was not
born till 1818.

The third brother was Edward, duke of
Kent, then a young man. He was not
on terms of ordinary friendship with his
brothers. Suddenly he determined to
marry.

Victoria, daughter of Duke Franz of
Saxe-Coburg, at that time 22 years of age,
had taken the duke's fancy. On July 11,
1818, this lady became the duchess of
Kent, the future mother of the future
queen of England.

When the duke was informed by his
consort that he had the prospect of an
heir, he was so much pleased that he
should be born on English soil. The
journey was attended with difficulty, for
his grace was much pressed for ready
cash in the spring of 1819, however, the
journey was made. The duke and duchess
were installed at Kensington palace,
then a place of residence for the prin-
ces and princesses of the royal family,
and on May 24, 1819, a pretty little
duchess placed her first-born child in
the world.

The duke was delighted with the
child. He would dandle and caress her,
and when he had her to the arms of ad-
miring spectators, with the caution, "Take
care of her, for she will be queen of
England." His grace did not live to en-
joy his parental happiness.

It had been prophesied that two mem-
bers of the family would die in the
course of 1819. The duke, however, the
prophesy implicitly, but he applied it to
his brothers. In the winter of 1819 he had
gone to the sheltered watering place of
Sunderland, in Devonshire. On January
he said, "the winter." One day he hap-
pened, when taking a walk, to get wet
and catch cold. He died in a few days,
or the lungs supervened and carried him
off.

The poor widow found herself, owing
to the duke's considerable debts, in a
very uncomfortable position at the time
of his death. Her brother, Leinster, en-
deavored to return to her the money she
had heretofore devoted herself to the
education of her child, Queen Victoria.
The duke's death, however, the duke of
Kent the property above mentioned was
completely nullified by the death of his
father, George III. On Monday, the 21st,
the new king, George IV., was proclaimed
George IV. The health of the new king
was precarious; his age was ad-
vanced; he had no real friends; he was
married, but his wife, Caroline, was
not his family, and his duchess was in a
quarrel with him. The duke of Clarence,
the next in order of succession, had two
daughters born to him. Each of them
had died in infancy, but there was
no possibility of a contingency. The next
in succession was the future princess
of Kensington, the duke's daughter, who
passed by made it more apparent that
only the life of the royal babe were
spared upon her. The monarchy
ultimately must devolve upon the
issue of the duke's marriage.

The king was fulfilled earlier than
most have been. He was crowned and
reigned for just ten years after his
accession to the throne as George IV.,
the duke of Clarence just seven years as Wil-
liam IV.

On August 30, 1826, King William, who
had acceded to the throne on the death
of his brother, in 1830 gave a dinner
party at Windsor on his birthday.

Having begun with an anathema the
king ended with a benediction, speaking
of the princess and her future reign in
terms of paternal interest and affection.
The effect, however, which the royal
utterances produced was alarming. The
queen looked in deep distress, the prin-
cess burst into tears, the duchess of
Kent said not a word, but soon after
leaving the room, announced her in-
mediate departure, and ordered her carriage.
There was but one event which his
majesty refused to witness in his
"God-forsaken realm." Life devoutly
prayed that he might live till the Prin-
cess Victoria was of age. His prayer
was just granted, but only just. It was
not until she was 12 years old that the
Princess Victoria was permitted to
know the truth about her reserve for her,
and even then the knowledge came in
an almost accidental manner.

Meanwhile the future husband of the
princess and her cousin was growing up
in Germany. Prince Albert, the son of
the duke of Coburg, was born at Rosen-
haus in the August of the same year as
Princess Victoria, and it is a curious co-
incidence, considering the future con-
nection of that prince with the future
queen, that the duke of Coburg, the ac-
couché who attended the birth of the young
princess, had only three months before at-
tended the death of the highest and wisest
of the princess. "How pretty the little
Mayflower," writes the grandmother of
the princess, "will be in a year's
time. She will be a beautiful girl, and I
describe what a dear little love it will be."
The Mayflower above spoken of was, of
course, the Princess Victoria. From a
very early period the princess and her
future husband were growing up in the
same household. The duke of Coburg per-
mitted himself to entertain the hope
that her two grandchildren would there-
after be united.

On February 25, 1831, when not quite 12
years of age, she attended her first draw-
ing room. "Lady Jersey," writes the
princess, "Mr. Grey, Mr. Adair and Mr.
with Lord Durham. She got up in a cor-
ner of the room and said: 'Lord Dur-
ham, that you have said things about
me which are not true, and I de-
clare that you call upon me to-morrow
to hear me to hear my positive de-
nial, and I hope that you will not re-
peat such things about me.' She was in
a hurry, and he in a still greater. He
thought that he should not say anything
in her house again, which she did not
hear, and after delivering herself of her
speech she sat down again in her
seat, mightily proud of her exploit. She
arose out of her saying that she would
attend to the duke's demand an audi-
ence of the queen to consider the matter,
which Lady Jersey said of her, and to
other Whig allies." These were days in
which the princess and her future hus-
band were growing up in the same
household. Victoria had taken her
place in that society as the heiress to the
English throne.

For national purposes the princess com-
pleted her majority on the 18th anniver-
sary of her birth.

On June 2, nine days after the event
had taken place, the king was desperately
ill and died on June 20.

The king died at 2:20 on the morning
of June 20, and the young queen met her
consort at Kensington palace at 11 a. m.
the same day. After having received the
two royal dukes, the two archbishops,
the chancellor and the prime minister,
Lord Melbourne—the proclamation was
read to the council, the usual order passed,
the doors were thrown open and the
young queen entered.

Of the proceedings the clerk of the
council wrote: "After she had read her
speech and taken and signed and sealed
for the security of the Church of Scot-
land the privy councillors were sworn,
the two royal dukes first by themselves,
and as the two old men were standing
knelt before her, swearing allegiance
and kissing her hand, saw her blush
up to the eyes, as she felt the con-
trast between their civil and natural
relations, and this was the only sign of
emotion which she exhibited. Her man-
ner to them was very graceful and in-
gaging. She kissed them both and rose
from her chair and moved toward the
west door, where she was met by the
duke and too timid to reach her. She
seemed rather bewildered at the multi-
tude of men who were sworn to be true
to her, and she seemed to feel the con-

Free Delivery For Paris.

There is every reason to believe that before another year rolls around Paris will be enjoying the blessings of a free delivery system. The financial business done by the postoffice last year was almost enough to justify it, and Postmaster McClintock informs the News that the business since the first of January, both in the registry and savings department, has been very satisfactory.

In the March of Progress.

THE Maysville Public Ledger, of Wednesday, says: "THE BOURBON NEWS and the merchants of Paris are keeping in the march of progress. In order to accommodate the increased advertising, THE NEWS proposes shortly to change its form, doing away with the patent inside and print the entire paper at home."

THE BOURBON NEWS is going to change to home print. This change is demanded by the increasing business of the paper. R. S. Porter, the well-known printer and newspaper man, is now city editor of THE NEWS.—[Cynthiana Mercury.]

THE BOURBON NEWS announces a change in the form of their paper and will begin all home print. Mr. R. S. Porter, a well known newspaper man, will become city editor. We count the News as one of our best exchanges and wish the new enterprise success.—[Cynthiana Times.]

ROBERT S. PORTER is now city editor of THE BOURBON NEWS and that paper will change in a short time to an all-home print.—[Flamingsburg Times Democrat.]

THE BOURBON NEWS will in a few weeks have all its pages printed at home—a sure index of well-deserved prosperity.—[Maysville Ledger.]

THE FARM AND TURF.

News For the Farmer, Trader and Stock Raiser.

James E. Kern purchased at Irvine court Monday twenty head of horses.

The Fugis-Tipton Co. will hold a sale at Madison Squire Garden, New York, 19 to 21.

In Montgomery, D. G. Howell sold 40,000 pounds of tobacco at 6½ cents. In Scott, George Murphy bought 416,600 pounds at from 5½ to 8 cents.

Twenty-seven shares of the Deposit Bank stock of Georgetown sold Monday at \$139.50 to \$141.

Mr. C. C. Clarke sold to Mann & Fahrman, Tuesday, a pair of extra mare mules for \$300.

The horse stock of the United States has increased in value since 1897 \$159,000,000. With something like 14,000,000 horses in the country this represents an improvement of about \$13 a head.

Jonas Wehl shipped Sunday eight car loads of export cattle to New York. Frank Bedford also shipped 1 car of butcher cattle to Cincinnati at the same time.

At Georgetown court a large crowd was on hand. Cattle forty per cent higher than last court, and horses brought good prices. Two hundred cattle on the market. Feeders, \$4.25 to \$4.43; yearlings, \$3.75 to \$4 per cwt; horses, \$100 to \$150; plugs, \$40 to \$70.

Auctioneer A. T. Forsyth sold yesterday for the heirs of Mrs. Sarah Talbot 130 acres of land, lying on the Winchester pike near Stony Point, to John Evans, of Clark County, at \$83.50 per acre. Mr. Evans afterward rented the farm to W. P. Stillwell for \$5 per acre.

Attention is directed to the advertisement in this issue of Bacon & Brennan's fine stallion, Jay Bird (sire of Allerton 2:09¼, etc.) and Scarlet Wilkes, 2:22½ (sire of George 2:08½, etc.) Charles Tanner, of Cleveland, has a two-year-old colt by Jay Bird, dam Cynthiana Maid by Bourbon Wilkes, that is a remarkably fine prospect. As a yearling last fall, after less than a month's training, he trotted a quarter in 33 seconds, and a few days later went the distance in 35½ seconds. He is eligible to \$52,000 worth of stakes.

The Kentucky Stock Farm says: "As a sire of speed and genuine good race horses, the name of Jay Bird ranks too high to require any comment in this paper, for he stands without a superior among the producing sons of the mighty George Wilkes. Jay Bird is not only a great sire himself, but also has sons that have proved themselves great sires, and his daughters have produced many with very fast records. Jay Birds are all sought after, and when sold always bring good prices."

A RECIPE SUGGESTION.

"Kin yeon tell me, young fellow," inquired Mr. Reuben Hay of Four Corners, "where hereabouts I kin git me a good farmer suit?"

"Why, there's a good pharmacist not two blocks away," replied the young fellow blithely.—Harper's Bazar.

Not True to Its Name.

"Didn't you start out with a play called 'Turned Adrift?'" asked the friend.

"We did," replied that eminent tragedian and repertory actor, Mr. Barnes Turner, "but we couldn't get anybody to float it."—Indianapolis Press.

The infancy of British manufacturing was nursed by engineers from Holland, who superintended the erection of wind and water mills.

It is one of the privileges of man to live and learn, but some men seem to live a great deal more than they learn.—Chicago News.

Insisted on a Change.

The spick and span young officer who calmly takes command over veterans grown "gray in battle and victory" is sometimes an amusing person, particularly if a sense of his own importance is unduly developed.

On one occasion word was received in various South African camps that on such and such a morning every man in office —'s army must change his shirt.

The Imperial Light horse, who formed part of the command, had only one shirt apiece, and that was on their backs. So a messenger was dispatched to explain. But the honorable and gallant officer, fresh from Sandhurst, knew his business.

"If the men of the Imperial Light horse have not got a second shirt," said he firmly, "let them change shirts with each other. My orders are imperative."

And There He Was.

"Yes," he said, "I think a man owes it to himself to choose a wife who can do housework. If necessary. Of course I wouldn't want my wife to work in the kitchen, but she ought to be able to do so. One never can tell what may happen. Girls sometimes leave suddenly, and fortunes are occasionally swept away. In my opinion, a girl does herself just as much honor in learning to do housework as in learning to play the piano or in studying 'Omar Khayyam,' and"

"Oh, Mr. Spoodlekins," she cried, "excuse me for interrupting you, but such a funny thing happened this afternoon. I dropped the dishcloth and said to myself, 'There, I know somebody will come this evening! And here you are!'" —Chicago Times-Herald.

On Tuesday night Paris was visited by a severe thunder storm, accompanied by vivid flashes of lightning. This was unprecedented for this time of year.

The Louisville & Nashville Railroad has put on some additional trains for South, having now some of the finest trains running solid between Cincinnati and Jacksonville, Fla.

At Newport News, Va., the Grand Jury refused to find an indictment against John Wakeley, ex-Parisian, charged with killing Sid Ellis. The testimony all showed the act to have been done in self defense.

AFTER the first of February we will abandon the old fashioned six months credit system and will collect monthly. It is better for us and better for the customer, so don't ask for credit longer than one month. DOW & SPEARS. (2)

Geo. Henry Allen was arrested yesterday by Officer Elgin on a warrant charging him with stealing a mule from James Allison. If convicted he will probably receive a life sentence, as it will be his third term in the penitentiary.

THE CORBIDE LION COMMANDERY, Knights Templar, will be the guests of Cynthiana Commandery Knights Templar at a banquet to be given at the Hamilton House in Cynthiana Friday night.

PARIS has a pretty young lady so charmingly cross-eyed that she can entertain three young gentlemen at once and send them away each thinking that he monopolized most of her attention during the evening.

The younger pupils of Miss Camilla Wilson will give a musicale at her residence on High street on Monday evening. On Tuesday evening the older pupils will entertain with a musical concert.

JACOB EMBRY, a Kentuckian and a graduate of Kentucky University, has been awarded a \$375 scholarship at Johns Hopkins University. The scholarship consists of \$125 tuition and \$250 cash. Mr. Embry entered Johns Hopkins in the fall of 1899 and will receive his Ph. D. degree next year. The scholarship was granted in the English course. Several graduates of Eastern universities competed with Mr. Embry.

TUESDAY evening the servant girl who cleans the rooms occupied by Major Henry Turley over his saloon on Main street, sat a bucket of hot ashes on the back porch. During the night the wind fanned the hot embers into a flame which ignited the porch. The driver for the Adams Express Co., who sleeps in the office, discovered the fire and extinguished it. A large hole was burned in the porch.

Good Tobacco Sale.

ASHBY LEER sold at the Central Tobacco Warehouse of Louisville, this week 29 bbls. of tobacco at \$4.50 to \$8.00; 2 bbls. at \$15 and \$15.25.

Will Attend Daily Sale.

The Blue Grass region will be well represented at the sale of thoroughbreds owned by the late Marcus Daly, at Madison Square Garden. The following will leave Lexington, Monday: Colonel E. F. Clay, Catesby Woodford and Wm. Hukill, of Paris; F. A. Forsyth, of Harrodsburg; George C. Gady, of Versailles; Capt. J. B. Vilev, of Midway; Kinsey Stone, of Georgetown; R. A. Baker, Forks of Elkhorn; Milton Young, C. F. McMeekin, J. B. Eving, O. H. Chenault, H. P. Headley, Willis Field, Garrett D. Wilson, George A. Bain, Leslie Combs, Campbell Scott and others.

Determined to Die.

N. A. Brown, of Battle Creek Mich., who last week selected Paris as a good place to die in, and attempted to carry out his intentions at the Fordham Hotel assisted by a piece of rubber hose and the Paris Gas Company, was taken to his home Tuesday morning by his father-in-law, Mr. J. H. Williams, ex-chief of Police of Battle Creek. Mr. Williams had been warned to keep a close eye on his son-in-law, as it was thought he would make another attempt on his life. They left on the 5-15 a. m. train, and as the train rolled into the depot, Brown made a rush for the track and deliberately placed himself in front of the engine. Mr. Williams, who for a moment was taken unawares, succeeded in pulling him off the track, and the pilot of the engine struck as it went by, not how ever doing him any injury. Mr. Williams said he would keep a closer watch on him during the rest of the journey, and would be thankful when they arrived home.

A Bold Robbery.

Tuesday evening, Will Gifford, who lives at Blue Lick Springs, gave Henry Berry, alias Will White, alias Henry Green, of color, twenty-five cents for bringing a valise to the depot. In the waiting room in getting the change he displayed a roll of bills containing fifty-five dollars. Berry jerked the money out of his hand and ran, followed by two of his companions, Jim Hicks and Will Simpson. Mr. Gifford reported the robbery to the police, and last night Officers Hill and Williams arrested the trio and lodged them in jail. Thirty-eight dollars of the money was recovered. Berry, after stealing the money, went to Talbott station and came up on the 5-39 train, and was arrested by Officer Hill while attempting to get to Lexington. Their examining trial has been set for to-morrow morning.

First Issue Of Bryan's Paper

The first issue of Bryan's paper, "The Commoner," was printed at Lincoln, Neb., Tuesday night. Mr. Bryan himself donned a printing apron and fed to the press the first 22 copies of the paper and the first was retained by him. It is an eight-page paper, 11 by 14 inches, and the first issue had not a single line of advertisement, the publisher having refused \$5,000 for one page of advertisement from a prominent firm. 50,000 copies of the paper was sent to subscribers.

The "Commoner" and THE NEWS one year for \$2.50.

Granted a Divorce.

The Fleming Circuit Court, at its present term granted a divorce to Mrs. Fannie K. Bacon from her husband, Warren Bacon, of this city, and restored to her her maiden name, Fannie Kehoe. Mr. Bacon did not contest the suit.

Dr Roberts Arrives Safe.

Dr. Wallingford yesterday received the following cablegram from Dr. H. H. Roberts, who sailed from New York for Europe about ten days ago:

NAPLES, JANUARY 23, 1901.

Dr. J. S. WALLINGFORD, Paris Kentucky.
Arrived at Naples on time. Family and all of party well. Very little sickness at sea. Only two days of rough weather. Warm, and spent much of time on deck. Every body delighted. Have mailed letters. ROBERTS.

Public Library Almost Assured

There is every indication that the efforts of THE NEWS towards getting a public library for Paris will be crowned with success in the near future. The Federation of Clubs will meet this afternoon at 8:15 with Mrs. C. Wilson, and it is probable that an election of trustees for the new library will be held.

It is not improbable that the City Council will make an appropriation for a library building to be erected by the city, the second floor to be used as a meeting room for the council.

By January, 1902, our citizens should be enjoying the inestimable benefits of a first-class library, which they should have had years ago.

Reception to Rev. and Mrs. G. W. Argabrite

Dr. and Mrs. F. M. Faries tendered a reception to Rev. G. W. Argabrite, pastor of the Baptist Church, and Mrs. Argabrite, at their home on Pleasant street Tuesday evening from 7 to 11. There were about two hundred persons present, the membership of all the Paris churches being represented. It was a very pleasant event and an excellent opportunity for Mr. Argabrite and his estimable wife to become acquainted with our people. Among those present were the following ministers: Rev. E. H. Pierce and wife; Rev. Dr. Ruthertford; F. J. Check; Eld. Lloyd Darsie; Rev. J. S. Meredith. An elegant luncheon was served, the tables being beautifully decorated with red carnations and snailax. Vocal selections were rendered by Mrs. Fanniebell Sutherland, Mrs. Henry Power and Mr. and Mrs. Argabrite. Miss Laura Lileston rendered several selections on the organ. Mr. and Mrs. Argabrite were introduced by Dr. and Mrs. Faries, assisted by Mr. and Mrs. B. B. Hutchcraft.

Teachers Will Get Their Salary.

At a special meeting of the Paris City Council Tuesday afternoon, the board advanced money sufficient to pay the public school teachers their salary, pending the solution of the school trustee squabble. It is probable the matter will have to be taken to the courts before it is finally settled.

Dastardly Acts.

For the past three or four nights, as the evening train for Lexington has been passing Claysville, some one has thrown rocks which broke the window and in one case inflicted serious injury on a passenger. In each case it seems the rock-thrower has picked out the first window in the smoking car, as each time that was the window broken. On Monday evening the flying glass struck a passenger in the face, severely cutting and bruising him. A strict watch is being kept, and if the guilty one is caught an example will be made of him, which will serve as a warning to others.

To Join the A. O. U. W.

GOVERNOR BECKHAM headed the list of about fifty of Frankfort's prominent citizens who were initiated into the Ancient Order of United Workmen last night. A royal banquet was partaken of after the ceremony of initiation was over. The following members of Paris lodge went over: Dr. R. T. Wood, Dr. Phil Foley, S. E. Borland, John Snyder, N. F. Clarke, Ben Hatchercraft, John T. Hinton, Jr., L. B. Harris, L. B. Lileston, Frank O'Neal and Robert Gorey.

A Successful Hunting Trip.

Charley James, of this city, who with Mr. Earl Sellers, of Lexington, is on a hunting trip at Magnolia Springs, Alabama, writes home that they are having a very pleasant time. He reports killing from forty to fifty birds a day and says the fishing is fine, especially for trout and red snapper. They will probably return in about a week or ten days.

SPLENDID

CITY PROPERTY.

I will offer for sale at public auction, on the premises, at 11 o'clock a. m., on Saturday, Feb. 2, 1901,

the following described property:

No. 1.—The 3-story brick building, known as the "Howard House," situated on Main street, between Second and Third streets, and adjoining the Hotel Windsor. The lot fronts about 26 feet on Main street, extending back 232 feet to Pleasant street. The building contains 16 rooms and would be suitable for a residence, boarding house, etc. On the Pleasant street end of this lot is situated a 3-story brick warehouse with frame additions, now used for storing tobacco; the Main street end is used as a furniture store.

No. 2.—The 2-story brick building, known as the "Citizens Bank Building," and now occupied by the Bank Saloon, conducted by O'Brien & James. Lot fronts on Main street 41 feet and 7 inches, and extends back 232 feet to Pleasant street. On the Pleasant street end of the lot is situated a frame stable. This lot adjoins No. 1.

Lot No. 1 and Lot No. 2 will be offered separately and as a whole, and the highest and best bid will be accepted.

The buildings on Lot No. 1 are now renting for \$43 per month, and on Lot No. 2 are renting for \$41 per month—a total for No. 1 and No. 2 of \$84 per month—and all are good tenants.

TERMS.—Made known on day of sale.

Fine Bourbon Farm FOR SALE.

I will offer at public sale on the premises, on

Tuesday, February 12th, 1901,

my farm containing 325 acres, situated in Bourbon County, Ky., near Elizabeth station, on the Kentucky Midland Railroad, six miles from Paris, 11 miles from Lexington, one-half mile from depot, stores, blacksmith shops and post-office. School and churches near. The land is fine for grass and for cultivation. There is on the farm 75 acres of growing wheat, 15 acres rye, 70 acres stubble land 25 acres orchard and over 100 acres of grass land which would raise tobacco.

All kinds of fruit in orchard, but mostly peaches, which show a fine prospect for a crop this season.

The farm is well watered. A splendid cistern at kitchen door, four wells, three never-failing and one has been full of water since it was made five years ago, but has never had a pump in it. Also, pond 33 and ponds.

The house is a good one, very convenient—I made it to live in. Six rooms, kitchen, store-rooms, pantry, closets and presses, and has just been repaired and nicely painted.

A fine flower pit, extra good meat-house, servants' house, stable, corn-crib, granary, work-shop, ice-house, carriage houses, hen-houses—in fact, more out-buildings than generally found on a first-class farm.

There is a good turnpike along the front of farm.

Possession can be given March 1st, 1901.

TERMS.—One-third cash, one-third in one year, one-third in two years—last two payments to bear 6 per cent. interest.

Persons desiring to see the place will call on either the undersigned.

Determined to Die.

N. A. Brown, of Battle Creek Mich., who last week selected Paris as a good place to die in, and attempted to carry out his intentions at the Fordham Hotel assisted by a piece of rubber hose and the Paris Gas Company, was taken to his home Tuesday morning by his father-in-law, Mr. J. H. Williams, ex-chief of Police of Battle Creek. Mr. Williams had been warned to keep a close eye on his son-in-law, as it was thought he would make another attempt on his life. They left on the 5:15 a. m. train, and as the train rolled into the depot, Brown made a rush for the track and deliberately placed himself in front of the engine. Mr. Williams, who for a moment was taken unawares, succeeded in pulling him off the track, and the pilot of the engine struck as it went by, not how ever doing him any injury. Mr. Williams said he would keep a closer watch on him during the rest of the journey, and would be thankful when they arrived home.

A Bold Robbery.

Tuesday evening, Will Gifford, who lives at Blue Lick Springs, gave Henry Berry, alias Will White, alias Henry Green, of color, twenty-five cents for bringing a valise to the depot. In the waiting room in getting the change he displayed a roll of bills containing fifty-five dollars. Berry jerked the money out of his hand and ran, followed by two of his companions, Jim Hicks and Will Simpson. Mr. Gifford reported the robbery to the police, and last night Officers Hill and Williams arrested the trio and lodged them in jail. Thirty-eight dollars of the money was recovered. Berry, after stealing the money went to Talbott station and came up on the 5:30 train, and was arrested by Officer Hill while attempting to get to Lexington. Their examining trial has been set for to-morrow morning.

First Issue Of Bryan's Paper

The first issue of Bryan's paper, "The Commoner," was printed at Lincoln, Neb., Tuesday night. Mr. Bryan himself donned a printing apron and fed to the press the first 22 copies of the paper and the first was retained by him. It is an eight-page paper, 11 by 14 inches, and the first issue had not a single line of advertisement, the publisher having refused \$5,000 for one page of advertisement from a prominent firm. 50,000 copies of the paper was sent to subscribers.

The "Commoner" and THE NEWS one year for \$2.50.

Granted a Divorce.

The Fleming Circuit Court, at its present term granted a divorce to Mrs. Fannie K. Bacon from her husband, Warren Bacon, of this city, and restored to her her maiden name, Fannie Kehoe. Mr. Bacon did not contest the suit.

Dr. Roberts Arrives Safe.

Dr. Wallingford yesterday received the following cablegram from Dr. H. H. Roberts, who sailed from New York for Europe about ten days ago:

NAPLES, JANUARY 23, 1901.
DR. J. S. WALLINGFORD,
Paris Kentucky.
Arrived at Naples on time. Family and all of party well. Very little sickness at sea. Only two days of rough weather. Warm, and spent much of time on deck. Every body delighted. Have mailed letters. ROBERTS.

Public Library Almost Assured

THERE is every indication that the efforts of THE NEWS towards getting a public library for Paris will be crowned with success in the near future. The Federation of Clubs will meet this afternoon at 8:15 with Mrs. C. Wilson, and it is probable that an election of trustees for the new library will be held.

It is not improbable that the City Council will make an appropriation for a library building to be erected by the city, the second floor to be used as a meeting room for the council. By January, 1902, our citizens should be enjoying the inestimable benefits of a first-class library, which they should have had years ago.

Reception to Rev. and Mrs. G. W. Argabrite

Dr. and Mrs. F. M. Faries tendered a reception to Rev. G. W. Argabrite, pastor of the Baptist Church, and Mrs. Argabrite at their home on Pleasant street Tuesday evening from 7 to 11. There were about two hundred persons present, the membership of all the Paris churches being represented. It was a very pleasant event and an excellent opportunity for Mr. Argabrite and his estimable wife to become acquainted with our people. Among those present were the following ministers: Rev. E. H. Pierce and wife; Rev. Dr. Rutherford; F. J. Check; Eld. Lloyd Darsie; Rev. J. S. Meredith. An elegant luncheon was served, the tables being beautifully decorated with red carnations and smilax. Vocal selections were rendered by Mrs. Fanniebell Sutherland, Mrs. Henry Power and Mr. and Mrs. Argabrite. Miss Laura Lilliston rendered several selections on the organ. Mr. and Mrs. Argabrite were introduced by Dr. and Mrs. Faries, assisted by Mr. and Mrs. B. B. Hutchcraft.

"Yes," answered the major, slowly; "yes!"

"Well, surely you ought not to have let any absurd fancy of hers make an impression on you."

Goddard rose to his feet. He looked like a man completely dazed.

"I have believed her life in danger ever since," he managed to say.

"Well, you certainly have nothing to fear on that score," said Dr. Fleming, as he followed his guest to the door.

"It was not because I wished to see her professionally that I informed her of my return to New York, but because she reminded me of the only child I ever had—which I lost five years ago."

There was no ceremony in Goddard's leaving. He left the physician staring at him in wonder as he headed for the stairs leading down into the office.

Father Surtees emerged from a throng of men near the newspaper racks and came forward in the glare of electric lights.

"Well," he inquired, eagerly.

"You were right," said Goddard.

"Thank God!" ejaculated the priest, fervently, and they made their way to the street. They walked half a block in absolute silence. Goddard's face was full of thoughts too vague for utterance.

"There is but one course before you now," counseled Father Surtees, as they paused on an isolated street corner and faced each other.

"And that is—"

"To make a clean breast of it all to Blanche."

"If she were dying it might not be so hard," said Goddard, "but—"

tears of agony rushed to his eyes; "but to know that she will live on to loathe me as she would a noxious reptile which had for a moment coiled itself around her unsuspecting heart. Oh, God! advise me to kill myself!"

"You never were a coward, Rowland," and Father Surtees laid his hand on Goddard's arm with a tender touch. "It is the consequence of your fault; take it on you like a man. Go to her. Tell her the whole truth."

"Thank you," said the major; "I shall do it."

He was turning away when the priest caught his arm again.

"You say the other is here in New York?"

"I think so," was the answer.

"I know you well enough now," said the priest, reflectively, "went enough

to feel sure you could never fall in her power again."

"If I meet her nothing—a power in Heaven nor beneath—could prevent my killing her."

"Nothing but Blanche," said the priest. "She would prefer to have as little publicity as possible. No restraint must be part of your burden. The woman must live."

"To assassinate Blanche?" cried the major. "No!"

"She will never do it when she knows that you and Blanche are parted. Of course, Blanche will want to go away at once."

"Of course," Goddard staggered away. A cab was passing, and he hailed it. The cabman smiled knowingly on the priest as he helped his friend to get in. He thought he was taking up a drunken swell. The priest gave the directions in a cold tone of reproof, and pressing Goddard's hand, he turned away.

"Oh, God, don't desert the poor, poor fellow," he said, with his eyes raised to a star which, pale as a white diamond, gleamed above the yellow glare of Madison square.

CHAPTER XVII.

That afternoon Blanche, who remained at home, had encountered an experience more thrilling than anything which had ever befallen her.

She had tried, after the major had left for the city, to pass the time away

with various amusements. She had poured out her complete happiness to the sympathetic pages of her diary; she had, when that joy had spent itself, gone to the piano and played her guardian's favorite airs, sung his favorite songs, imagining him in his smoking jacket and slippers in his usual seat on the great leather lounge. Then a small cloud rose between her and the sun of her present happiness. It was the memory that such a short time had elapsed since another had occupied her place, and that thought had frequently beset her of late, but seldom with such persistency as now. She tried to fight against its influence, to tear herself from its grasp, but in vain. One of the most tantalizing of these thoughts was that Jeanne Goddard's room still remained just as the absent woman had left it, just as Blanche vividly remembered it on the night preceding Mrs. Goddard's departure. Its door had not been opened since its occupant had left. Blanche supposed it was locked, as she had once, in passing, seen the key to the door hanging on a nail outside.

"Perhaps," thought our poor heroine, "if I could put down my objections to seeing the room again, and go there, I might not think of it so frequently; and I really must be more generous. But—" Blanche shuddered as her thoughts ran on unchecked. "I cannot bear to think that she once had all his love. She—when God had made us for each other!"

She would not have been the woman she was if these recollections had not stung her proud nature to the quick. "I certainly have a good opportunity now," she thought, remembering that both the maids had asked for a leave of absence that afternoon, and through the window she could see James leaning over the wall at the foot of the lawn engaged in deep conversation with an acquaintance. So the outcome of her mental arguments for and against this step was that she bravely ascended the stairs, went along the fern-decorated corridor to the door of the room which had haunted her so much of late. To her surprise she missed the key from the nail where it usually hung. Then she noticed it in the lock, and that the door was slightly ajar. Thinking this was perhaps due to the negligence of the servants, the young wife entered and stood in the center of the room—a target for sharp memories which were shooting into her heart from several objects in the boudoir—Jeanne's couch and chair, the divan where she had once seen her husband with his arm around his wife. Blanche's face was set with keenest suffering as she turned her back on the canopied bed with its lace coverings, rich tapestries and down-filled pillows. She was wondering if, after all, the visit was going to be productive of good when she heard a slight rattling noise about Mrs. Goddard's escritoire, which was hidden from her view by a tall screen of painted silk in a frame of mahogany. Blanche advanced and looked over it. To her horror she saw a man trying to fit a key into the lock of the desk. Happening to glance upward at that instant his startled eyes met hers.

Blanche uttered a scream of fright and shrunk back.

"For God's sake, don't! I am not a thief, miss!" exclaimed the man, rising head and shoulders above the screen, the key falling from his hands.

Blanche paused. The thought that she was alone with him in the great house showed her the futility of flight, but it was the earnestness of his declaration of innocence which detained her. Besides, now that she had the man fully in view, there was something in the regretful expression of his rather sad face which inspired confidence. He was well dressed, his hair and short beard were white as snow, though his face did not bear testimony to more than 50 years of age.

"I—I—" began Blanche, but she was unable to steady her voice.

"I know appearances are dead against me," said the intruder, "but I hope you won't judge me too harshly. I am a sort of detective engaged in ferreting out a case touching me personally."

Blanche stood, her hand on the door, still agitated.

"Were you admitted by—by the servant?" she asked.

"I must confess that I avoided him," answered the intruder. "If you will let me pass you, I will go downstairs; but I want to explain. I cannot have you think—"

"I don't think I am afraid of you," said Blanche, strangely calmed by his manner and tone of voice. "I know that detectives sometimes resort to bold methods."

"But I am not a professional detective," said the man, as he picked up his hat, which had fallen to the floor. "As I said, I am seeking information that concerns me alone. If you wish you may call your manservant, and he may be near while I try to explain my presence here. You have a perfect right to hand me over to the police, and if you are generous enough to let me go, I should want to repay you by perfect frankness on my part. Besides, if I am right in my suspicions, I have a most important revelation to make to the owner of this house."

"You interest me in spite of myself," said Blanche. "But perhaps we ought to go down to the drawing-room."

"You are quite right," acquiesced the stranger, and, with a deferential bow, he passed Blanche on the threshold of the chamber and descended the stairs. Of his own accord he turned into the drawing-room. Our heroine followed and paused near the doorway. She felt perfectly secure, without knowing why.

"Will you pardon me if I ask who you are?" he said, with an apologetic inclination of voice. "Are you related to Maj. Goddard?"

"I am his wife," said Blanche, simply.

"What? Oh, no! Surely not!"

"I have not misinformed you," said Blanche.

His face had fallen.

"Then I have made an awful mistake," he said, "and I owe you and the major a thousand apologies. I hope you will pardon me. I have been following a false clue, and yet—"

He seemed to have his first opinion fortified by memory, "and yet I can't see how I can be off the track so badly. It would undo me entirely. Surely you did not have a millinery establishment on Fifth avenue up to the time of your marriage."

"No," said Blanche, with a start; "perhaps you are thinking of Maj. Goddard's first wife."

"Has he been married twice?" cried the stranger. "Why, only two months ago—"

"Mrs. Goddard died—or was drowned about two months ago."

AARON BURR'S MAGNETISM.

"No Female Capable of the Gentle Emotions Ever Looked Upon Him Without Loving Him."

From the time the beautiful and brilliant Mme. Junel had seen a young girl, and when Aaron Burr was only a captain in the American army, she had been more than once under the spell of his strange fascination, writes William Ferrine, in the Ladies' Home Journal. Burr had introduced her to the celebrated Margaret Moncreiff, had desperately flirted with her, and had implanted within her an admiration which was still alive when he was in aged social exile. She had written of him in earlier days that he appeared to her to be "the perfection of manhood," that his figure and form had been fashioned in the mold of the graces, and that he was as familiar with the drawing-room as with the camp. "In a word," she said, "he was a combined model of Mars and Apollo. His eye was of the deepest black and sparkled with an incomprehensible brilliancy when he smiled, but if enraged its power was absolutely terrific. In whatever female society he chanced by the fortunes of war or the vicissitudes of private life to be cast he conquered all hearts without an effort; and until he became deeply involved in the affairs of state, and the vexations incident to the political arena, I do not believe a female capable of the gentle emotions of love ever looked upon him without loving him. Wherever he went he was petted and caressed by her sex, and hundreds of us with each other in a continuous struggle to offer him some testimonial of their adulation. Subsequently Mme. Junel was married to Burr, who was nearly 80 and she nearly 60. The marriage was not a happy one, and the two soon separated.

POOR BELSHAZZAR.

A Well-Known Missionary Who Only Preached on This One Subject.

A well-known missionary, Rev. C. T. Brady, says that once, having been left in charge of the cathedral, he preached on Belshazzar, a subject which fascinated him, and which also had the power to inspire him to extemporaneous speaking, says the Youth's Companion.

The next Sunday he began his tour of missionary work. He preached on Belshazzar in the morning, and made his next duty again at night at the next station. On Tuesday he went to a third place, and, intoxicated with his previous success, used the overworked Assyrian again. After the service a gentleman stepped up to him, shook hands and said:

"That is a very fine sermon of yours."

The preacher was flattered, and ventured to hope that it had done him a better good.

"Yes," said the other, "it has. I thought it was a fine sermon when I heard it first, two Sundays ago. I liked it better when I heard it last Sunday morning, and as I happened to be in the town where you preached Sunday night, I heard it there also. When I made this town—I am a traveling man—and heard that you were to preach, I thought I would come round and see if I couldn't meet my old friend. I have liked it better at each hearing," he continued, with a merry twinkle of his eye. "Won't you let me know when and where you are going to offer it again?"

The preacher, in shame and confusion, owned that Belshazzar was his only extemporaneous sermon, and therefore his best beloved. The confession delighted the hearer even more than the rest of the joke had done, and the two became the best of friends.

But Mr. Brady owns that he has scarcely dared to use Belshazzar since. He is afraid of getting the Belshazzar habit.

Quite the Contrary.

A Washington school-teacher who has just come back from Paris tells of returning to America in very rough weather on a French ship. The third morning out she was almost the only woman visible. She came up on deck and spied a little French woman, greenly pale, trying her best not to be sick, in a sunny corner.

"Have you breakfasted yet?" asked the American, in her very best French. The French woman rolled her eyes despairingly.

"Breakfasted!" she echoed. "Hein, non, madame. Quite the contrary."

ELISHA GRAY DEAD.

Inventor of the Telephone Stricken Suddenly on the Street.

He was an Ohio Genius and Although his Discovery Revolutionized the Business World he Died Poor.

Newton, Mass., Jan. 21.—Prof. Elisha Gray, of Chicago, who was associated with Arthur J. Mundy in the perfection of a system for submarine signaling, died suddenly at Newtonville Monday night.

Prof. Gray was associated with Prof. Alex. Graham Bell in the perfection of the telephone, and had been east about a year and a half in connection with the invention of submarine signaling. He was stricken while on the street. He was picked up in an unconscious condition and carried into a neighboring house, where he died. Neuritis of the heart is assigned as the cause.

His first work was as a farm boy. His father and mother were Quaker farmers in Belmont county, O. David Gray, the father, died when Elisha was 12 years old. The best work the boy could get was as apprentice to the village blacksmith.

He then determined to follow the work of his parents and be a farmer. He went upon a rented farm, and about that time married Miss M. Delia Shepard, of Oberlin. The farming venture did not prove a success, the genius spending more time in rigging out new machines than he did in planting his crops. He planned many improvements for reaping and spent so much time in doing it that he never had anything to reap. It was a season of clouds and failure, but he managed to get some sunshine by dabbling in electricity in an upper room of the farmhouse.

This was the scene of his first invention. He managed to devise a self-adjusting telegraphy relay, and wrote of his discovery to Anson Stager, who was then superintendent of the Western Union Telegraph office at Cleveland. Gen. Stager saw genius in the young farmer, and at once sent for him to come and use the company's wires for his experiments. This was the beginning.

Mr. Gray came, and at once began to improve the service. In a short time he had perfected the typewriting telegraph, telegraphic switch, the annunciator, and many other appliances which still bear his name. He fell in with E. M. Barton, who has since moved to Chicago, and organized the Western Electric Manufacturing Company, which now employs more than 1,500 men.

Prof. Gray lacked foresight, as usual in such cases. He retired, or was retired, from the big company. The retirement was a matter of absolute indifference to him, although the company is now an enormous concern. He went back to his laboratory. The first thing he did in 1874 was to rig up a machine by which sound—musical tone—could be transmitted by wire. The discovery so delighted him that he called in his friends to show them the machine. He displayed the invention to every one who called, and went abroad in that year to make a study of acoustics. His queer little appliance was exhibited on the other side of the ocean. It took the scientific world by storm, and, in recognition of the merit of the queer little machine, he was made a Chevalier in the legion of honor.

The machine which carried musical sound suggested to him that he could make a speaking telephone. He worked on the idea in 1875 and 1876, and succeeded in getting his plan into working order. He thought this was a practical thing and filed his papers at Washington. A man of the same bent of mind filed papers for the same thing about the same time. It was never contested that the two were different. In the papers of the man who won the long series of law suits, it was evident that some of the appliances could not have been described but not some one seen Prof. Gray's specifications. The suits went against Prof. Gray, but all the scientific world and all the scientists to-day give him the credit of having invented the telephone.

He went to work after the decisions and has done much more besides. He designed the system of underground conduits for telegraph, telephone and electric light wires. He got practically nothing for this. He was content in having benefited the human race. He added from time to time an instrument or two, and then made a hit with mining machinery. This earned him the biggest money he ever had, \$60,000. He spent it as quickly as he could.

TARIFF REDUCTION DEMANDED.

Havana, Jan. 21.—A mass meeting of planters, merchants and representatives of the various political parties held in Havana adopted resolutions asking the United States to lower its duty on Cuban products and suppression of export duty on tobacco.

FIFTY-SIXTH CONGRESS.

Second Session.

Washington, Jan. 19.—Senate—Just before 6 o'clock Friday the senate finally disposed of the army reorganization bill. The measure having originated in the senate, the final question was not upon its passage, but upon agreeing to the senate amendments. They were agreed to by a vote of 43 to 33. The following bills were passed: Authorizing the postmaster general to lease premises for the use of the rural free delivery division of the post office department; extending the time for the commencement to January 28, 1902, and the completion to January 28, 1904, of a bridge across the Missouri river at Osceola, S. D.

House—The house spent the entire day Friday on the bill to refer to the court of claims the claims of the Wm. Cramp and Sons Ship Building Co., of Philadelphia, for alleged damages due to the delay of the government in furnishing armor plate and material for the battle ships Massachusetts and Indiana and cruisers New York and Columbia. The claims aggregate \$1,367,244.

Washington, Jan. 21.—Senate—No business of importance was transacted in the senate Saturday.

House—Representative Lentz (O.) Saturday introduced an amendment to the postal code, which is now being considered in the house, which, if it is adopted, will cancel all contracts the government has with the American District Telegraph Co. to deliver special delivery letters. In several of the cities of Ohio such contracts are in existence, and Mr. Lentz is opposed to it because of the small wages that are paid to messenger boys. He wants the letters delivered by government messengers.

Washington, Jan. 22.—Senate—No business of special importance was transacted by the senate in open session. An executive session of more than two hours' duration was held, and 66 pages of the legislative, executive and judicial appropriations were completed before adjournment.

House—Among the bills passed on Monday were: To provide a home for aged and infirm colored people out of the fund now in the treasury to the credit of deceased colored soldiers, amounting to about \$230,000; to establish a branch soldiers' home at Johnson City, Washington county, Tenn., and to increase the salary of the commissioner of education of Porto Rico from \$3,000 to \$4,000. A bill to give citizens of foreign countries the right to sue in the court of claims for indemnity for alleged injuries, which had been recommended by the state department, was disapproved.

Washington, Jan. 23.—Senate—The senate Tuesday adopted appropriate resolutions on the death of Queen Victoria, of England. During the sitting of the senate in open session the legislative, executive and judicial appropriation bill was completed so far as the committee amendments were concerned. It is now subject to amendment by individual senators. Little other business of importance was transacted.

House—Before the announcement of the death of the queen the house passed the bills to send to the court of claims the claims of Cramp & Sons, amounting to something over \$1,300,000, for alleged damage done to the company on account of the failure of the government to promptly furnish armor plate and other material used in the construction of naval vessels. The senate bill to extend the placer mining laws to saline lands was passed after a rather spirited debate. The District of Columbia appropriation bill was taken up and some progress was made with it. Appropriate resolutions on the death of Queen Victoria were adopted, and out of respect the house adjourned.

Washington, Jan. 24.—Senate—Consideration of the shipping bill was resumed Wednesday. At the instance of Mr. Frye (Me.), who relinquished the chair temporarily to take charge of the measure on the floor, it was made the unfinished business of the senate, thus restoring it to its privileged position.

House—The house Wednesday passed the District of Columbia appropriation bill and entered upon consideration of the naval appropriation bill. There was some discussion of the extent to which the navy was to be increased ultimately in the course of which Mr. Wheeler (Ky.) and a member of the committee, declared himself in favor of a navy large enough to meet "all comers." Several provisions of the bill were knocked out on points of order, including that to give warrant officers the commutation for quarters allowed second lieutenants of the marine corps.

THE CURRENCY BILL.

Subcommittee of the House Report Favorably a Substitute For the Overstreet Measure.

Washington, Jan. 24.—A subcommittee of the house on banking and currency reported favorably a substitute for the Overstreet currency bill a bill providing that the treasury shall pay gold on demand for silver, or other classes of money in sums not less than \$50 and the silver and other forms of money thus received by the treasury shall be placed in the reserve fund. The full committee considered the report but did not have time to reach a conclusion.

Treaty With Spain Ratified.

Washington, Jan. 23.—The senate has ratified the treaty with Spain for the acquisition of the islands of Sibutu and Cagayan, of the Philippine group, at a cost of \$100,000. There were no votes to spare, a two-thirds vote being needed and the vote standing 38 to 19.

Truck Growers' Union.

Miami, Fla., Jan. 23.—The truck growers of Dade county, one of the best sections in the state for early vegetables, have organized for mutual protection.

CURIOSITIES.

In German cities fresh oysters cost from 60 to 75 cents a dozen.

It is stated on good authority that kerosene is used as an intoxicating beverage in Paris, to a limited extent at present. The stimulant is not in a high degree intoxicating, but it is of a most peculiar fascination.

Statistics are said to show that in the past 32 years only 271 divorces have been granted in Canada. Parliament passes on most divorce cases and petitioners do not care to face the solemn proceedings.

A Beggar's Hoard.—A beggar woman who died in Paris left behind her \$8,000 in gold and bonds. The money was found concealed in a hovel in which she resided for half a century. She begged principally at church doors.

About a mile south of the Michigan state line and near Cedar Lake, Ind., is a small spot of land upon which vegetation absolutely refuses to grow. The spot is less than 20 feet in diameter and is located in a grove which torture ground of the Pawnee Indians.

A few months ago an old miser named Christian Young, residing near Prescott, Wis., died. The other day administrators of his estate sold some wood piles to Cornelius Meacham. Meacham discovered in the wood pile \$1,000 in gold wrapped in a bundle of underwear. He turned the money over to the administrators.

EUROPEAN ECHOES.

Germany has a coast line of 950 miles.

In the vicinity of Odessa are what are called "limans," vast sheets of water, which were originally connected with the sea, but through gradual silting up of sand have isolated, and are now extensive salt water lakes.

Two magnificent carpets, presented by the Infanta Dona Sanchi to the royal convent of St. Antonio in 1550, have just been sold by auction at the municipal chamber, Lisbon, to pay for repairs at the convent and church.

In the island of Cyprus is a basin cut off from the sea, although sunk slightly below sea level, which contains a salt lake from which a considerable harvest of salt is annually obtained in August, when the fierce summer heat dries up the water.

Experiments are being made in Russia with a new fuel, "petrolized peat." Ordinary peat is impregnated by special methods with crude petroleum or with petroleum residue. The product is said to be impermeable to moisture and does not absorb it even after being left in water; it does not dry to a powder like common peat, and its heat-giving value is almost equal to that of coal.

Gold! Gold! Gold!

The latest El Dorado is reported to be on Nome City Beach, Alaska. Thousands of people are hastening there, many of whom return broken in health. Of what avail is gold when health is gone? Guard your health with the best of all medicines, Hostetter's Stomach Bitters. It will regulate the bowels, stir up the liver, invigorate the kidneys, and absolutely cure indigestion, constipation, malaria, chills and fever. It's a good medicine to keep on hand.

Casey's Case.

A Canadian gentleman, named Casey, was appointed to a government place which technically had to be occupied by a lawyer, which Mr. Casey was not. The members of the law society, however, undertook to devote the technicality, and appointed one of their number to examine him as to his knowledge of the law.

"Well, Casey," said the examiner, "what do you know about the law?" "Well," to tell the truth," said Casey, modestly, "I don't know a single thing."

"I have examined Mr. Casey as to his knowledge of the law," the examiner stated in his affidavit, "and to the best of my knowledge and belief he answered all the questions entirely correctly."—Law Notes.

A Tailor's Experience.

Mr. J. Holliday, who was at one time a cutter for Mr. Bell, merchant tailor of Fourth & Main Streets, Cincinnati, Ohio, wrote: "Palmer's Lotion has cured me of Granulated Sore Eyelids of several years' standing, after having been treated in vain by one of the best eye-surgeons in the city, and after spending in other ways large sums of money. The first application gave me immediate relief. This wonderful healer and beautifier should be kept in every home. THE DUTY OF MOTHERS.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment, and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

Mrs. August Pfalzgraf, of South Byron, Wis., mother of the young lady whose portrait we here publish, wrote Mrs. Pinkham in January, 1899, saying her daughter had suffered for two years with irregular menstruation—had headache all the time, and pain in her side, feet swell, and was generally miserable. Mrs. Pinkham promptly replied with advice, and under date of March, 1899, the mother writes again that Lydia E. Pinkham's Vegetable Compound cured her daughter of all pains and irregularity.

Nothing in the world equals Mrs. Pinkham's great medicine for regulating woman's peculiar monthly troubles.

APPENDICITIS

that dreadful fiend that threatens the life of rich and poor, can attack and kill only those whose bowels are not kept thoroughly cleaned out, purified and disinfected the year round. One whose liver is dead, whose bowels and stomach are full of half decayed food, whose whole body is unclean inside, is a quick and ready victim of appendicitis.

If you want to be safe against the scourge, keep in good health all the time, KEEP CLEAN INSIDE! Use the only tonic laxative, that will make your bowels strong and healthy, and keep them pure and clean, protected against appendicitis and ALL EPIDEMIC DISEASES. It's CASCARETS, that will keep and save you. Take them regularly and you will find that all diseases are absolutely

The Oldest and Best.

S. S. S. is a combination of roots and herbs of great curative powers, and when taken into the circulation searches out and removes all manner of poisons from the blood, without the least shock or harm to the system. On the contrary, the general health begins to improve from the first dose, for S. S. S. is not only a blood purifier, but an excellent tonic, and strengthens and builds up the constitution while purging the blood of impurities. S. S. S. cures all diseases of a blood poison origin, Cancer, Scrofula, Rheumatism, Chronic Sores and Ulcers, Eczema, Psoriasis, Salt Rheum, Herpes and similar troubles, and is an infallible cure and the only antidote for that most horrible disease, Contagious Blood Poison.

A record of nearly fifty years of successful cures is a record to be proud of. S. S. S. is more popular today than ever. It numbers its friends by the thousands. Our medical correspondence is larger than ever in the history of the medicine. Many write to thank us for the great good S. S. S. has done them, while others are seeking advice about their cases. All letters receive prompt and careful attention. Our physicians have made a life-long study of Blood and Skin Diseases, and better understand such cases than the ordinary practitioner who makes a specialty of no one disease.

We are doing good to suffering humanity through our consulting department, and invite you to write us if you have any blood or skin trouble. We make no charge whatever for this service.

The London Bus.

A bus weighs 3,200 pounds and costs £145. It is made of ash and oak except the paneling which is mahogany, and the windows are of plate glass. Before a bus is allowed to earn its £2 10s. a day it has to be licensed, or, as they say, "you have to get a number plate for it." This number plate is the white plate with black figures surmounted by a crown seen at the tail of the bus. It is provided by the police and costs £2. Then there is a wheel duty of 15s. per annum to be paid to the inland revenue.

After making these payments any one can run a bus in London wherever he likes, subject of course to the general rules and regulations bearing upon all vehicular traffic. Attached to each bus is a stud of 12 horses, of which only ten, or five pairs, are worked in any one day, thus securing a complete day's rest for each pair every sixth day. As a bus runs 64 miles a day and five pairs of horses are used it follows that a bus horse's day's work is 13 miles, which he does in less, considerably less, than three hours, the rate at which he travels being between five and six miles an hour.

This does not seem a great deal to exact from a horse, still the work is hard, often involving a prolonged dead pull at the trot, and the crowded condition of the London streets makes it harder by necessitating continual deviations out of the way of obstacles and abrupt stoppages to avoid collisions. How a Woman Loves.

Whenever I hear his name, I could faint. When I see him, I could sink into the ground. At the sight of his handwriting I grow cold from head to foot. I tremble, my heart aches so that it seems breaking in two. I long to be with him, yet when I am with him I have nothing to say. I have to escape and be miserable all alone. He is my thought all day; the last before I sleep, the first when I awake. I could cry and cry. I try to read, and I remember not a word. I like playing best, for then I can almost imagine that he is listening. But when I stop playing and look around I find myself in an empty room. It is awful. I call his name; no one answers. I whisper it; still no answer. I throw myself on the ground, and I say, "Think of me, think of me; you shall; you must; you do think of me." It is great torture and a great despair. Perhaps it is a madness too. But it is my way of loving. I want to love while I live. If I knew for certain that he loved me—me only—the joy, I think, would kill me. Love! Do you know, poor little angel, what it means? Sometimes it is a curse. From "Robert Orange," by Mrs. Craigie.

Cured by Forgetting.

This is an English story, and, strange as it may seem, it made a hit when it was told at the Lamb's club, says the New York Telegraph. It was perpetrated by Lawrence d'Orsay, the English actor. Several members of the club spun yarns of dubious merit, when Mr. d'Orsay in his peculiar way began:

"Now, gentlemen, I'll relate a story." One man present pulled out his watch, and they all thought it was going to be a serial. One or two started to go, but the actor stopped them by his assurance that the story wouldn't be very long.

"There was a friend of mine in London," he said, "who was an incessant cigarette smoker. Finally he lost his memory. Then he forgot to smoke cigarettes, and he got well again."

Mr. d'Orsay effected his escape through the assistance of a friend who knew him when he didn't tell such stories.

A CAROLINE ISLANDS LEGEND.

The Caroline Islands group includes besides coral islands five mountainous islands of basaltic formation, beautiful and fertile with rivers and springs.

Among the many queer legends of these children of the Pacific there is none more highly improbable than their theory as to the origin of these islands and their inhabitants. They think they themselves were very strong in the water—in fact, they lived in it.

The story goes that a woman and her children were floating around on the reef when a man appeared from the west with a basket of soil on his shoulders. He had started out to make an island with a mountain on it. One of the children cried out to him, "Give us a little soil to make a place for our mother to rest, for she is very weak and cannot swim." He took out a handful of the earth and threw it down, making an island. As the man was going on his way over the water the son slyly made a hole in the basket, so as he proceeded on his way he left a trail of land behind. Suddenly he became conscious that the basket seemed light, and, looking around, he saw the land. In his anger he turned about and trod upon it, and thus the islands were formed.

Cobwebs and Cuts.

An old time remedy to stop blood flowing from a cut is to put cobwebs over it, but from recent discovery it appears a dangerous thing to do. Some time ago a woman fell and cut her head, and when her friends hurried to her assistance they found the blood flowing from a deep gash. Cobwebs were applied, and the bleeding quickly stopped, but in a few days the woman was taken with lockjaw.

A scientist declared there were lockjaw germs in cobwebs, and that was the way the woman contracted the disease. He has made quite a study of the subject and says that in a handful of cobwebs he found 61 different disease germs. That being true, it is very easy to see how one could get not only lockjaw, but many other dreadful diseases, as the cobweb is placed right on an open wound and the germs can enter the blood. Cobwebs form in dark, dirty places, and it is not to be wondered that they gather germs.—Exchange.

The Log of a Ship.

A ship's log is an instrument for measuring the rate at which the vessel is going and consists of three parts—viz, the log chip, the log line and the log glass. The principle is simply this:

A light substance thrown from the vessel serves to partake of the motion of the vessel as soon as it strikes the water and will be left behind on the surface after a certain interval. If the distance of the ship from this stationary object be measured, the approximate rate of sailing will be given.

The log chip is the float, the log line is the measure of the distance, and the log glass defines the interval of time.

In the old days the heaving of the log required skill and watchfulness, but since the patent log has come into use no skill is required in finding the speed of a vessel. It is regulated by clock-work, and the number of knots the vessel sails per hour is recorded on the dial without any hand touching it.

The London Bus.

"English travelers," says a London correspondent of the Boston Transcript, "have so feared our advertising outrages upon architecture and scenery that I fancied we were of all nations most culpable. But after a season's residence in England I hold America excused. Our advertising efforts are modest, even feeble, beside those of our British cousins."

"A London bus is a mere advertising van with accommodations for passengers. It takes almost as long to read one through as to read a daily paper. The destination of the bus is marked in inconspicuous letters, the smallest on the canvas decorated vehicle, and the chances of disentangling those letters from the maze of advertising announcements about them in time to hail the bus you want are smaller still."

Crape on the Door.

The custom of placing crape on the door of a house where there has been a recent death had its origin in the ancient English heraldic customs and dates back to the year 1100 A. D. At that period hatchments, or armorial ensigns, were placed in front of houses when the nobility or gentry died. The hatchments were of diamond shape and contained the family arms quartered and covered with sable.

A Lost Line.

"It may have been unprofessional conduct," said the civil engineer, "but I acted on the spur of the moment, and I hardly think that there was any harm done. I was out in the country one day on an important piece of business, and as I was about to leave for the depot to catch a train for the city two old farmers came to me with a line fence dispute that they wanted me to settle for them. I had barely time to catch my train, and I told them that I did not care to bother with it. It was only a matter of six inches or so that was in dispute, and I advised them to split it up between them. But they wouldn't listen to my advice, and one of them declared that if I didn't find the line for them he wouldn't let his son drive me to the station as he had promised. As I had no other way of reaching the depot I unpacked my instruments with a sigh and a mental resolve to end the thing as soon as possible."

"Well," drawled both of the old men as I took my eye away from the instrument, "what's the line?"

"Gone," said I solemnly.

"What?" they both shouted.

"You can see for yourselves, gentlemen," said I, making way for them.

"By gosh, I can't see it!" said one of them as he squinted through the glass.

"I'll be darned if I kin either," said the other one as he, too, squinted through the glass.

"It seems to have disappeared, gentlemen," said I. "Such cases are extremely rare, but they are known to happen."

"When I left, they were measuring each other of London styles," said I.

When threatened by pneumonia or other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. W. T. Brooks.
